

# High Performance Homes are in Every Market

Earn NAR's Green Designation to gain a competitive edge.

Through this two-day program, you'll gain an understanding of:

Buyers' and sellers' changing expectations about energy and home performance

How properties with green features can sell for more

Marketing the benefits of high performance features and smart home technology

The advantages of a sustainable business model

Learn more about the designation at [GreenREsourceCouncil.org](http://GreenREsourceCouncil.org)
